About Us

Under the name Parantez R&D - Design, our facility began operations in firearms design and manufacturing for the defense industry in 2015, in Huğlu/Konya.

Over time, Parantez R&D - Design collaborated with more than 50 renowned companies in CNC programming, contract manufacturing, the design of smoothbore and rimfire firearms, and bonding materials. During this period, Parantez R&D designed and oversaw the manufacturing process of many prominent firearms, several of which have achieved sales in thousands.

In 2020, the facility adopted the name Parantez R&D Defense and continued production at its new location in Beyşehir/Konya, Türkiye, beginning in early 2021 with significant investments in new CNC machinery.

Today, Parantez R&D Defense is taking confident steps toward the global marketplace, aiming to deliver top-quality small arms to our clients worldwide.

OUR MISSION

As Parantez R&D, our mission is to provide top quality small arms to the global market while conforming to the international quality measurement and management standards and to supplement growth of defense business by utilizing latest technology equipments and R&D methods.

Reliability

At Parantez R&D Defense, our product's reliability matters most. Our products have been tested meticulously for every situation to ensure total satisfaction.

Innovation

Parantez R&D Defense believes in importance of innovation in order to meet the needs of worldwide marketplace and to satisfy its customers.

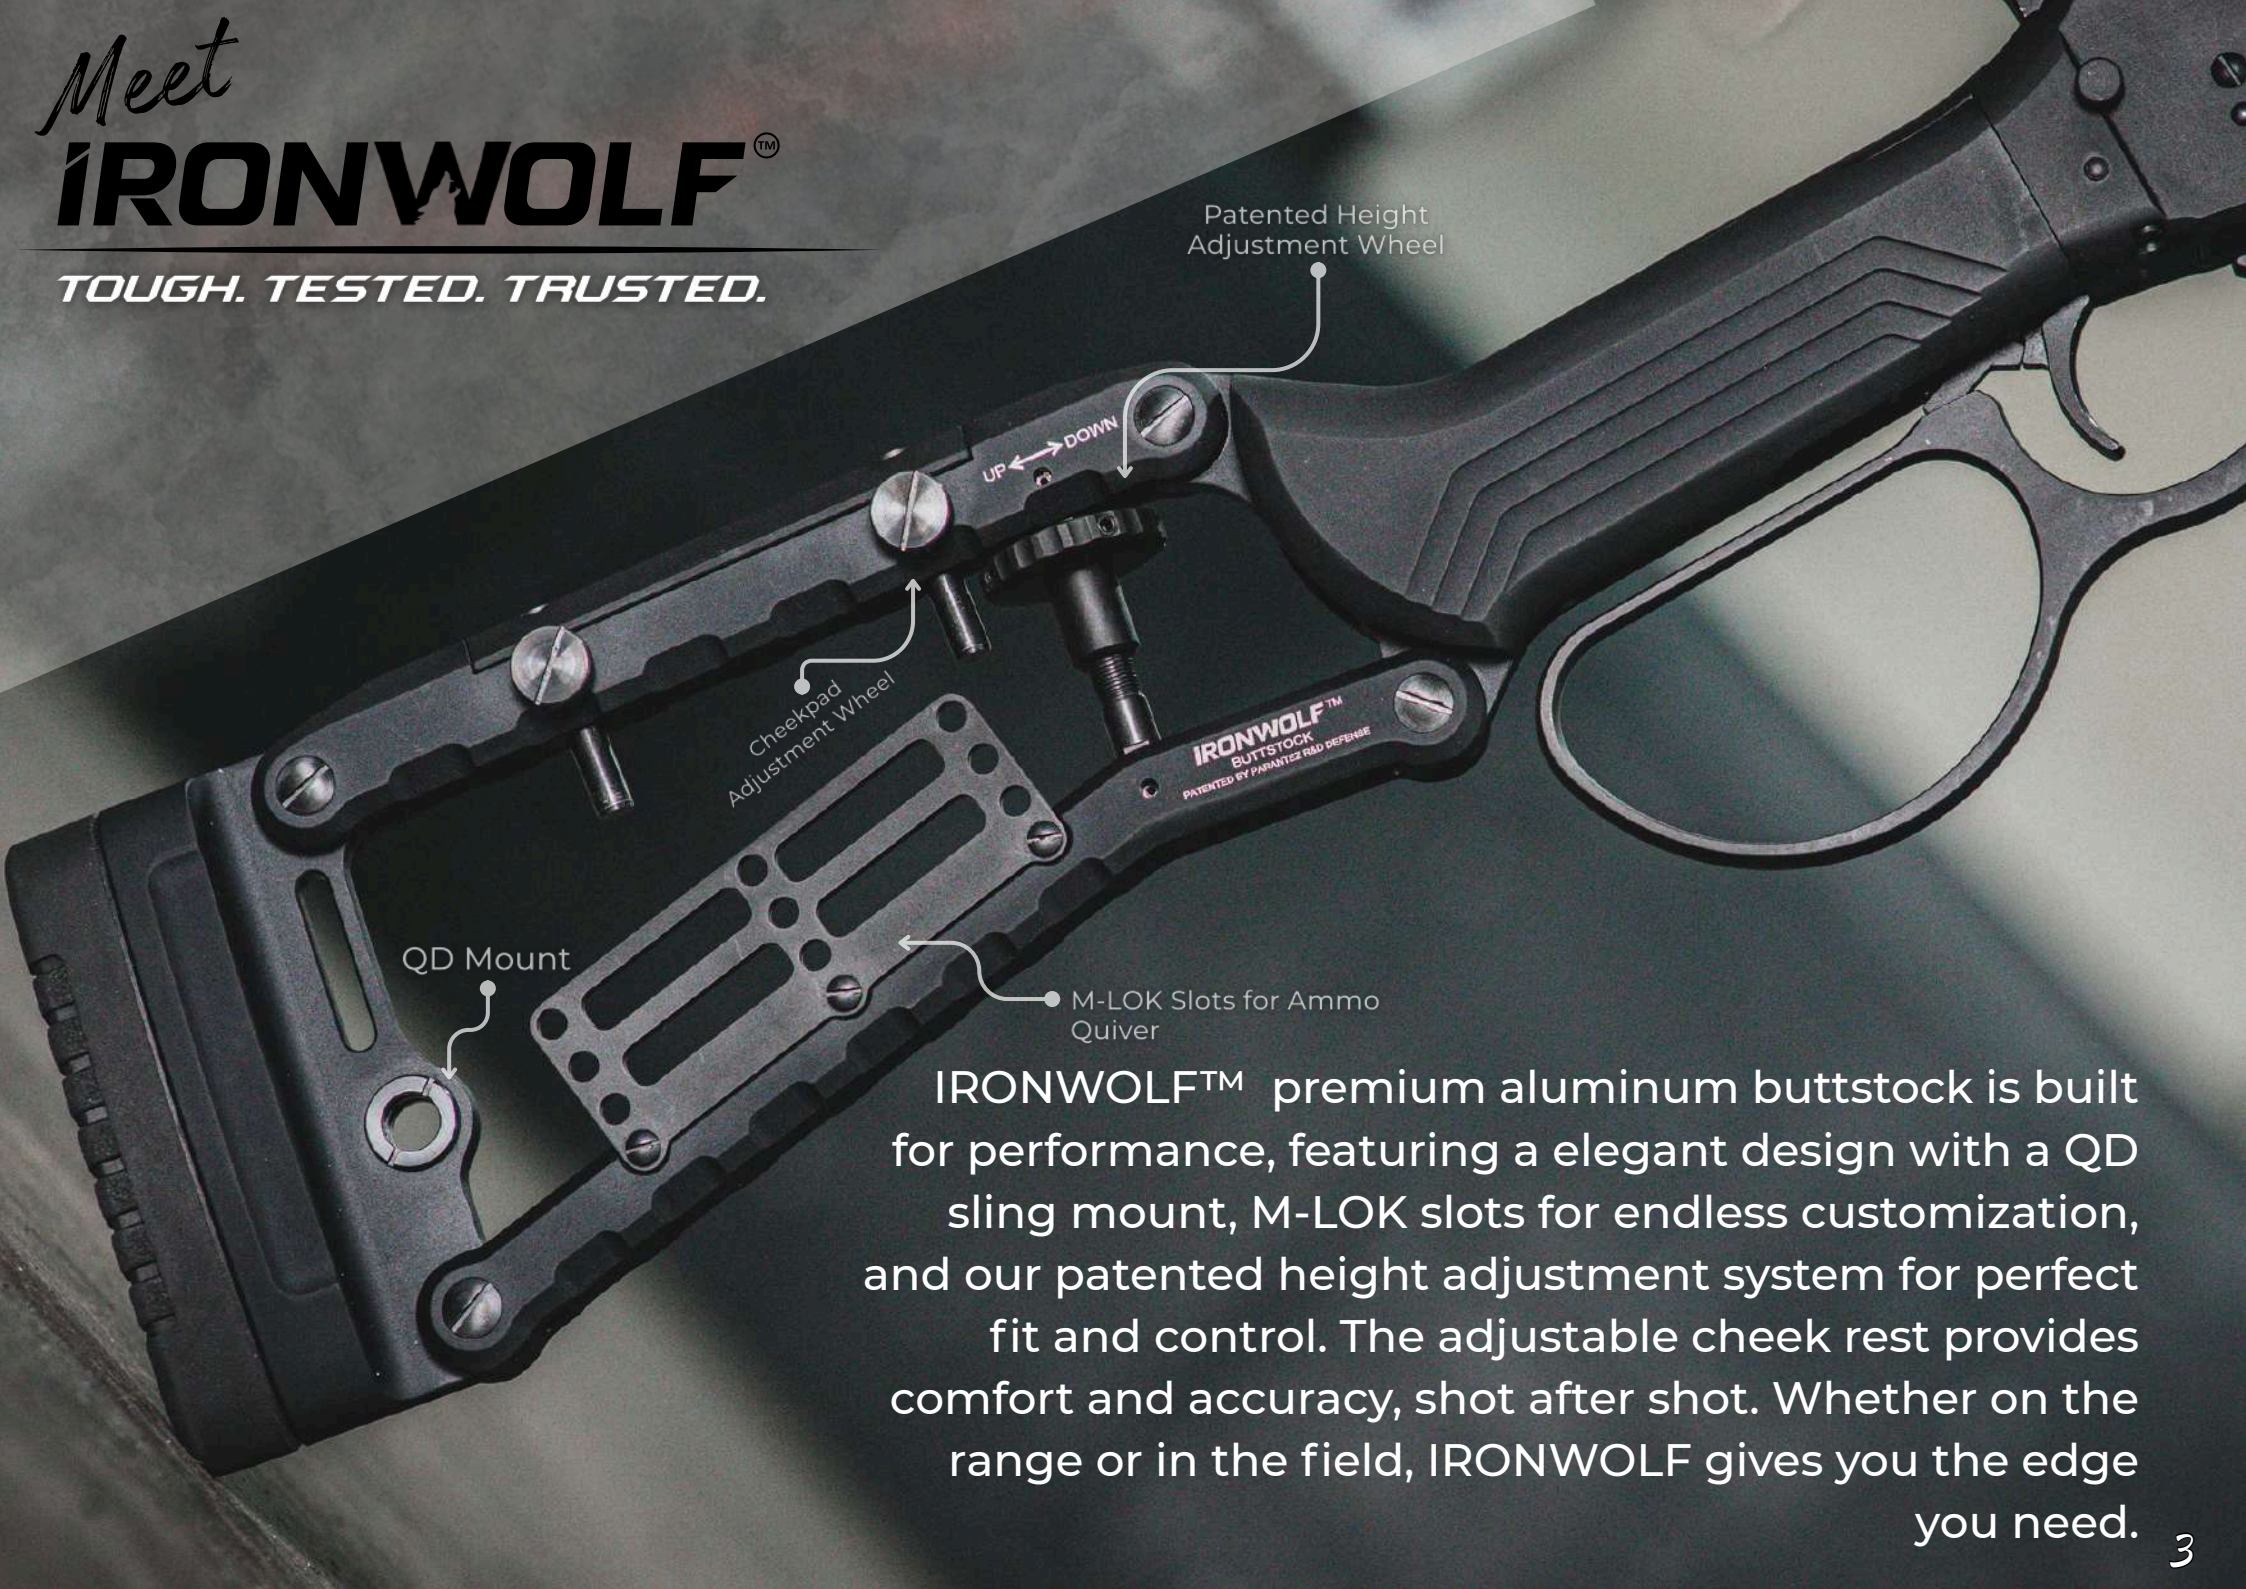

Precision

Parantez R&D Defense prioritizes product precision. Our engineers pay utmost attention to each and every detail of our products .

Meet **IRONWOLF™**

TOUGH. TESTED. TRUSTED.

IRONWOLF™ premium aluminum buttstock is built for performance, featuring a elegant design with a QD sling mount, M-LOK slots for endless customization, and our patented height adjustment system for perfect fit and control. The adjustable cheek rest provides comfort and accuracy, shot after shot. Whether on the range or in the field, IRONWOLF gives you the edge you need.

Meet **WESTON**™

Introducing the MORISSON WESTON™ a refined lever action rifle that blends classic craftsmanship with modern elegance. Featuring an acid-etched steel receiver, Grade II walnut furniture, and laser-engraved details, it offers a timeless look with a smooth black finish. Traditional sights and premium materials make the WESTON ideal for those who value heritage styling and precision quality.

Innovation

Our Morisson™ lever-action rifles are distinguished by their groundbreaking mono-block steel receiver, a first in the industry. This advanced receiver design offers unparalleled durability, strength, and stability, setting a new benchmark for lever-action rifles.

By eliminating the need for multiple joined components, the mono-block steel receiver not only enhances the rifle's structural integrity but also contributes to its seamless operation, delivering a smoother and more reliable shooting experience.
